Hanover Bancorp, Inc. Reports Third Quarter 2025 Results and Declares \$0.10 Quarterly Cash Dividend

Third Quarter Performance Highlights

- **Net Income:** Net income for the quarter ended September 30, 2025 totaled \$3.5 million or \$0.47 per diluted share (including Series A preferred shares), versus \$2.4 million or \$0.33 per diluted share (including Series A preferred shares) in the prior linked quarter.
- **Pre-Provision Net Revenue:** Pre-provision net revenue was \$6.0 million resulting in a return on average assets of 1.05% for the quarter ended September 30, 2025 which was the highest level since the first quarter of 2023, versus \$5.7 million and 1.04% in the prior linked quarter and \$4.8 million and 0.85% in the third quarter of 2024.
- **Net Interest Income:** Net interest income was \$15.2 million for the quarter ended September 30, 2025, an increase of \$0.4 million, or 2.89% from the quarter ended June 30, 2025 and \$2.1 million, or 16.19%, from the quarter ended September 30, 2024.
- **Net Interest Margin Expansion:** The Company's net interest margin during the quarter ended September 30, 2025 increased to 2.74% from 2.37% in the quarter ended September 30, 2024. The net interest margin for the month ended September 30, 2025 was 2.83%.
- **Deposit Growth:** Total deposits increased \$20.5 million or 1.05% from December 31, 2024 and \$23.5 million or 1.21% from June 30, 2025. Demand deposits increased \$21.3 million, or 10.08%, from December 31, 2024, underscoring the success of our C&I and Municipal banking verticals.
- **Strong Liquidity Position:** At September 30, 2025, undrawn liquidity sources, which include cash and unencumbered securities and secured and unsecured funding capacity, totaled \$712.2 million, or approximately 253% of uninsured deposit balances. Insured and collateralized deposits, which include municipal deposits, accounted for approximately 86% of total deposits at September 30, 2025.
- **Loan Growth:** Loans totaled \$1.99 billion, a net increase of \$22.2 million or 4.52% annualized from June 30, 2025, primarily driven by growth in niche-residential and conventional C&I.

- **Loan Diversification Strategy:** The Company continues to actively manage its Multi-Family and Commercial Real Estate portfolios which resulted in a reduction in the commercial real estate concentration ratio to 362% of capital at September 30, 2025 from 385% at December 31, 2024 and 397% at September 30, 2024. The Company will selectively explore Commercial Real Estate opportunities with an emphasis on relationship based Commercial Real Estate lending.
- **Book Value Per Share:** Book value per share (including Series A preferred shares) increased to \$27.03 at September 30, 2025 from \$26.52 at June 30, 2025 and \$26.48 at December 31, 2024. Tangible book value per share (including Series A preferred shares) increased to \$24.43 at September 30, 2025 from \$23.94 at June 30, 2025 and \$23.86 at December 31, 2024.
- **Quarterly Cash Dividend:** The Company's Board of Directors approved a \$0.10 per share cash dividend on both common and Series A preferred shares payable on November 20, 2025 to stockholders of record on November 13, 2025.

Mineola, NY – October 30, 2025 – Hanover Bancorp, Inc. (“Hanover” or “the Company” – NASDAQ: HNVR), the holding company for Hanover Community Bank (“the Bank”), today reported results for the quarter ended September 30, 2025 and the declaration of a \$0.10 per share cash dividend on both common and Series A preferred shares payable on November 20, 2025 to stockholders of record on November 13, 2025.

Earnings Summary for the Quarter Ended September 30, 2025

The Company reported net income for the quarter ended September 30, 2025 of \$3.5 million or \$0.47 per diluted share (including Series A preferred shares), versus \$3.5 million or \$0.48 per diluted share (including Series A preferred shares) in the quarter ended September 30, 2024. Returns on average assets, average stockholders' equity and average tangible equity were 0.61%, 6.90% and 7.63%, respectively, for the quarter ended September 30, 2025, versus 0.62%, 7.35% and 8.19%, respectively, for the comparable quarter of 2024.

While net interest income increased during the quarter ended September 30, 2025 compared to the quarter ended September 30, 2024, this was partially offset by the decrease in non-interest income, particularly gain on sale of loans held-for-sale, and an increase in the provision for credit losses. The Company's effective tax rate was 25.2% in the third quarter of 2025 and 23.4% in the comparable 2024 quarter. We expect a normalized effective tax rate of 25.0% for the remainder of the year.

Non-interest expenses for the three months ended September 30, 2025 decreased \$0.6 million, or 4.78% from the June 30, 2025 quarter primarily due to decreased incentive compensation expense, lower data processing costs from a recently converted core system and lower professional fees.

Net interest income was \$15.2 million for the quarter ended September 30, 2025, an increase of \$2.1 million, or 16.19% from the comparable 2024 quarter. This increase was due to improvement of the Company's net interest margin to 2.74% in the 2025 quarter from 2.37% in the comparable 2024 quarter. The cost of interest-bearing liabilities decreased to 3.89% in the 2025 quarter from 4.53% in the comparable 2024 quarter, a decrease of 64 basis points. This decrease was partially offset by a 23 basis point decrease in the yield on interest earning assets

to 5.94% in the 2025 quarter from 6.17% in the third quarter of 2024. Net interest income on a linked quarter basis increased \$0.4 million or 2.89%, resulting from a 5 basis point decrease in cost of interest-bearing liabilities, partially offset by a 4 basis point decrease on yield on interest earning assets.

Earnings Summary for the Nine Months Ended September 30, 2025

For the nine months ended September 30, 2025, the Company reported net income of \$7.5 million or \$1.00 per diluted share (including Series A preferred shares), versus \$8.4 million or \$1.14 per diluted share (including Series A preferred shares) in the comparable 2024 nine-month period. The Company recorded adjusted (non-GAAP) net income (excluding core system conversion expenses of \$2.6 million, net of tax) of \$10.0 million or \$1.34 per diluted share in the nine months ended September 30, 2025, versus adjusted (non-GAAP) net income (excluding severance and retirement expenses) of \$8.6 million or \$1.16 per diluted share in the comparable 2024 nine-month period. Returns on average assets, average stockholders' equity and average tangible equity were 0.44%, 5.00% and 5.54%, respectively, for the nine months ended September 30, 2025, versus 0.50%, 5.93% and 6.60%, respectively, for the comparable 2024 period. Adjusted (non-GAAP) returns, exclusive of core system conversion expenses on average assets, average stockholders' equity and average tangible equity were 0.60%, 6.72% and 7.45%, respectively, in the nine months ended September 30, 2025, versus 0.51%, 6.04% and 6.73%, respectively, in the comparable 2024 period, exclusive of severance and retirement expenses for the 2024 period.

The decrease in net income recorded for the nine months ended September 30, 2025 from the comparable 2024 period is due to an increase in non-interest expenses, particularly compensation and benefits expense and the one-time core system conversion expenses. These were partially offset by an increase in net interest income and a decrease in provision for credit losses. The increase in compensation and benefits expense for the nine months ended September 30, 2025 versus the comparable 2024 period was primarily related to additional headcount to staff the new Port Jefferson branch and expansion of the C&I lending vertical and lower deferred loan origination costs partially offset by lower incentive compensation expense resulting from reduced lending activity. The Company's effective tax rate decreased to 24.1% for the nine months ended September 30, 2025 from 24.5% in the comparable 2024 period.

Net interest income was \$44.6 million for the nine months ended September 30, 2025, an increase of \$5.4 million, or 13.65% from the comparable 2024 period, due to the improvement of the Company's net interest margin to 2.73% in the 2025 period from 2.41% in the comparable 2024 period. The cost of interest-bearing liabilities decreased to 3.95% in the 2025 nine months period from 4.45% in the comparable 2024 period, a decrease of 50 basis points. This decrease was partially offset by a 16 basis point decrease in the yield on interest earning assets to 5.98% in the 2025 period from 6.14% in the comparable 2024 period. The increase in the net interest margin was a result of the late 2024 and recent reductions in the Fed Funds effective rate and the liability sensitive nature of the Bank's balance sheet.

Michael P. Puorro, Chairman and Chief Executive Officer, commented on the Company's quarterly results: "Our third quarter performance reflects positive notes, including increased Pre-Provision Net Revenue of \$6.0 million driven by an increase in net interest income and lower operating expenses. Continuing performance should be positively influenced by further Federal Open Market Committee ("FOMC") rate decreases and an improved yield curve, positively impacting our liability sensitive balance sheet and potentially increasing lending

opportunities. With our continued development of hi-tech branches in key markets, such as Hauppauge, Port Jefferson and others coming soon, supported by local, relationship-based Business Development Officers, we are growing market share in an effort to drive increased shareholder value.”

Balance Sheet Highlights

Total assets were \$2.33 billion at September 30, 2025 versus \$2.31 billion at December 31, 2024. Total securities available for sale at September 30, 2025 were \$100.0 million, an increase of \$16.3 million from December 31, 2024, primarily driven by growth in collateralized mortgage obligations and corporate bonds.

Total deposits were \$1.97 billion at September 30, 2025 versus \$1.95 billion at December 31, 2024. Total deposits increased \$20.5 million, or 1.05%, from December 31, 2024. Demand deposits increased \$21.3 million, or 10.08%, from December 31, 2024 underscoring the success of our C&I and Municipal banking verticals. Our loan to deposit ratio improved to 101% at September 30, 2025 from 102% at December 31, 2024.

The Company had \$513.6 million in total municipal deposits at September 30, 2025, at a weighted average rate of 3.47% versus \$509.3 million at a weighted average rate of 3.72% at December 31, 2024. The Company’s municipal deposit program is built on long-standing relationships developed in the local marketplace. This core deposit business will continue to provide a stable source of funding for the Company’s lending products at costs lower than those of consumer deposits and market-based borrowings. The Company continues to broaden its municipal deposit base and currently services 42 customer relationships.

Total borrowings at September 30, 2025 were \$100.7 million, with a weighted average rate and term of 4.36% and 15 months, respectively. At September 30, 2025 and December 31, 2024, the Company had \$100.7 million and \$107.8 million, respectively, of term FHLB advances outstanding. The Company had no FHLB overnight borrowings outstanding at September 30, 2025 and December 31, 2024. The Company had no borrowings outstanding under lines of credit with correspondent banks at September 30, 2025 and December 31, 2024.

Stockholders’ equity was \$201.8 million at September 30, 2025 as compared to \$196.6 million at December 31, 2024. Retained earnings increased by \$5.2 million due primarily to net income of \$7.5 million for the nine months ended September 30, 2025, which was offset by \$2.3 million of dividends declared. The accumulated other comprehensive loss at September 30, 2025 was 0.39% of total equity and was comprised of a \$0.3 million after tax net unrealized loss on the investment portfolio and a \$0.5 million after tax net unrealized loss on derivatives. Book value per share (including Series A preferred shares) increased to \$27.03 at September 30, 2025 from \$26.52 at June 30, 2025 and \$26.48 at December 31, 2024. Tangible book value per share (including Series A preferred shares) increased to \$24.43 at September 30, 2025 from \$23.94 at June 30, 2025 and \$23.86 at December 31, 2024.

Loan Portfolio

For the nine months ended September 30, 2025, the Bank's loan portfolio increased \$3.2 million to \$1.99 billion from December 31, 2024. On a linked quarter basis, net loans increased \$22.2 million. At September 30, 2025, the Company's residential loan portfolio (including home equity) amounted to \$751.5 million, with an average loan balance of \$491 thousand and a weighted average loan-to-value ratio of 57%. Commercial real estate (including construction) and multifamily loans totaled \$1.08 billion at September 30, 2025, with an average loan balance of \$1.5 million and a weighted average loan-to-value ratio of 59%. As discussed below, approximately 36% of the multifamily portfolio is subject to rent regulation. The Company's commercial real estate concentration ratio continues to improve, decreasing to 362% of capital at September 30, 2025 from 385% at December 31, 2024 and 397% at September 30, 2024, with loans secured by office space accounting for 2.67% of the total loan portfolio and totaling \$53.1 million at September 30, 2025. The Company's loan pipeline at September 30, 2025 is approximately \$178.8 million, with approximately 72% being niche-residential, SBA and USDA lending opportunities.

The Bank remains focused on expanding its core verticals and continues to originate loans for its portfolio and for sale in the secondary market under its residential flow origination program. During the quarters ended September 30, 2025 and 2024, the Company sold \$21.4 million and \$16.5 million, respectively, of residential loans under its flow origination program and recorded gains on sale of loans held-for-sale of \$0.5 million and \$0.4 million, respectively.

During the quarters ended September 30, 2025 and 2024, the Company sold approximately \$11.4 million and \$27.1 million, respectively, in government guaranteed SBA loans and recorded gains on sale of loans held-for-sale of \$0.9 million and \$2.4 million, respectively. SBA loan originations and gains on sale were lower than expected due to a confluence of factors. One factor is the impact of the "higher-for-longer" interest rate environment that we believe has both worsened the financial condition of and reduced demand among small business borrowers, resulting in a lower volume of creditworthy customers. Another factor is the negative impact of and uncertainty created by tariffs, which we believe have also dampened loan demand among borrowers in certain industries. A third factor is the Bank's decision to tighten credit over the course of the last year. Although management continues to believe this to be a prudent measure, it has nonetheless resulted in a lower volume of loan approvals. Taken together these and other factors have adversely impacted SBA loan originations and closings. The Bank concluded the third quarter of 2025 with C&I loan originations of approximately \$24.1 million. Based on its existing pipeline, the Bank expects C&I lending and deposit activity to grow as the year progresses.

Commercial Real Estate Statistics

A significant portion of the Bank's commercial real estate portfolio consists of loans secured by Multi-Family and CRE-Investor owned real estate that are predominantly subject to fixed interest rates for an initial period of 5 years. The Bank's exposure to Land/Construction loans as of September 30, 2025 is minor at \$5.9 million, all at floating interest rates. As shown below, as of September 30, 2025, 28% of the loan balances in these combined portfolios will either have a rate reset or mature in 2025 and 2026, with another 56% with rate resets or maturing in 2027.

Stabilized Multi-Family Pro Forma Stress Results

The table below reflects a proforma stressed evaluation of the Bank's Multifamily stabilized loan portfolio as of September 30, 2025, using the primary assumption for a revised Debt Service Coverage Ratio ("DSCR") calculation, for all loans where the current interest rate is below 6%. The current balance for these loans is recast at 6% (despite lower current market rates) with a 30-year amortization. The chart below reflects the impact of these adjustments on the portfolio. The projected loan to value ("LTV") assumption resets all loans using a 6% cap rate (despite lower current cap rates) and the last reported property net operating income ("NOI") to determine an implied property valuation and based on the current loan balance the resultant LTV.

Multi-Family Stabilized Rent Portfolio						
DSCR Range	# Loans	Total O/S (\$000's omitted)	% of Total MF Portfolio	Current Weighted Average LTV	Projected Weighted Average LTV	
< 1.0	9	\$ 13,946	3 %	60 %	96 %	
1.0 < x < 1.2	22	68,884	13 %	66 %	75 %	
1.2 < x < 1.3	17	38,089	7 %	63 %	68 %	
1.3 < x < 1.5	15	31,301	5 %	62 %	61 %	
1.5 < x < 2.0	22	33,500	6 %	57 %	54 %	
x > 2.0	13	8,242	2 %	43 %	31 %	
Total	98	\$ 193,962	36 %	62 %	67 %	

As reflected above, the results show approximately 2.60%, or 9 loans totaling \$14 million of the total multi-family portfolio would have proforma DSCR's less than 1x while maintaining projected weighted average LTV's under 100%. Approximately 93% or 89 loans totaling \$180 million would possess DSCR's greater than 1x while maintaining a projected weighted average LTV well within our policy guidelines. Additionally, 73% of the stabilized loans and 72% of the entire multi-family are further secured with personal guarantees from the borrowers. Based on the maturities and rate resets in the previous 12 months, we believe the overall demand for multifamily housing in our market will allow our borrowers to address any adverse impact proactively. Of the previous 12 months maturities and rate resets, 27% of the loan pool successfully refinanced with other institutions at market rates similar to those used in the above analysis and the balance remained with the Bank.

Rental breakdown of Multi-Family portfolio

The table below segments our portfolio of loans secured by Multi-Family properties based on rental terms and location as of September 30, 2025. As shown below, 64% of the combined portfolio is secured by properties subject to free market rental terms, which is the dominant tenant type. Both the Market Rent and Stabilized Rent segments of our portfolio present very similar average borrower profiles. The portfolio is primarily located in the New York City boroughs of Brooklyn, the Bronx and Queens.

Office Property Exposure

The Bank's exposure to the Office market is minor. Loans secured by office space accounted for 2.67% of the total loan portfolio at September 30, 2025, with a total balance of \$53.1 million, of which less than 1% is located in Manhattan. The pool has a 2.31x weighted average DSCR, a 52% weighted average LTV and less than \$350,000 of exposure in Manhattan.

Asset Quality and Allowance for Credit Losses

At September 30, 2025, the Bank reported \$17.2 million in non-performing loans compared to \$12.7 million at June 30, 2025, an increase of \$4.5 million, and \$16.4 million at December 31, 2024, an increase of \$0.8 million. Of the \$4.5 million increase in nonperforming loans over the linked quarter, \$3.1 million is related to residential mortgage loans which are well secured with LTV's averaging 58%. At September 30, 2025 non-performing loans were 0.86% of total loans outstanding versus 0.82% at December 31, 2024.

During the third quarter of 2025, the Bank recorded a provision for credit losses expense of \$1.3 million (net of a \$50 thousand reduction of provision for credit losses on unfunded commitments). Net charge-offs of \$0.6 million were incurred during the quarter. The September 30, 2025 allowance for credit losses was \$22.4 million versus \$21.6 million at June 30, 2025 and \$22.8 million at December 31, 2024. The allowance for credit losses as a

percentage of total loans was 1.12% at September 30, 2025, 1.10% at June 30, 2025 and 1.15% at December 31, 2024.

Net Interest Margin

The Bank's net interest margin increased to 2.74% for the quarter ended September 30, 2025 compared to 2.37% in the quarter ended September 30, 2024 due to the continuing effects of the late 2024 and recent reductions in the Federal Funds effective rate and the liability sensitive nature of the Bank's balance sheet. The net interest margin for the month ended September 30, 2025 was 2.83%.

Non-GAAP Disclosure

This discussion, including the financial statements attached thereto, includes non-GAAP financial measures which include the Company's adjusted net income, adjusted basic and diluted earnings per share, adjusted return on average assets, adjusted return on average equity, tangible common equity ("TCE") ratio, TCE, tangible assets, tangible book value per share, return on average tangible equity and efficiency ratio. A non-GAAP financial measure is a numerical measure of historical or future performance, financial position or cash flows that excludes or includes amounts that are required to be disclosed in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles in the United States ("U.S. GAAP"). The Company's management believes that the presentation of non-GAAP financial measures provides both management and investors with a greater understanding of the Company's operating results and trends in addition to the results measured in accordance with GAAP, and provides greater comparability across time periods. While management uses non-GAAP financial measures in its analysis of the Company's performance, this information is not meant to be considered in isolation or as a substitute for the numbers prepared in accordance with U.S. GAAP or considered to be more important than financial

results determined in accordance with U.S. GAAP. The Company's non-GAAP financial measures may not be comparable to similarly titled measures used by other financial institutions.

With respect to the calculations of and reconciliations of adjusted net income, TCE, tangible assets, TCE ratio and tangible book value per share, reconciliations to the most comparable U.S. GAAP measures are provided in the tables that follow.

Any or all of the forward-looking statements in this release and in any other public statements made by Hanover Bancorp, Inc. may turn out to be incorrect as a result of inaccurate assumptions that Hanover Bancorp, Inc. might make or by known or unknown risks and uncertainties. There are a number of important factors that could cause future results to differ materially from historical performance and these forward-looking statements. Factors that might cause such a difference include, but are not limited to: (1) the impact of a pandemic or other health crises and the government's response to such pandemic or crises on our operations as well as those of our customers and on the economy generally and in our market area specifically, (2) competitive pressures among depository institutions may increase significantly; (3) changes in the interest rate environment may reduce interest margins; (4) loan origination and sale volumes, charge-offs and credit loss provisions may vary substantially from period to period; (5) general economic conditions may be less favorable than expected; (6) political developments, wars or other hostilities may disrupt or increase volatility in securities markets or other economic conditions; (7) legislative or regulatory changes or actions may adversely affect the businesses in which Hanover Bancorp, Inc. is engaged; (8) changes and trends in the securities markets may adversely impact Hanover Bancorp, Inc.; (9) a delayed or incomplete resolution of regulatory issues could adversely impact our planning; (10) difficulties in integrating any businesses that we may acquire, which may increase our expenses and delay the achievement of any benefits that we may expect from such acquisitions; (11) the impact of reputation risk created by the developments discussed above on such matters as business generation and retention, funding and liquidity could be significant; and (12) the outcome of any future regulatory and legal investigations and proceedings may not be anticipated. Further information on other factors that could affect the financial results of Hanover Bancorp, Inc. are included in our Annual Report on Form 10-K under Item 1A - Risk Factors, as updated by our subsequent filings with the Securities and Exchange Commission. Consequently, no forward-looking statement can be guaranteed. Hanover Bancorp, Inc. does not intend to update any of the forward-looking statements after the date of this release or to conform these statements to actual events.

⁽¹⁾ A non-GAAP financial measure is a numerical measure of historical or future financial performance, financial position or cash flows that excludes or includes amounts that are required to be disclosed in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles in the United States ("U.S. GAAP"). The Company's management believes the presentation of non-GAAP financial measures provide investors with a greater understanding of the Company's operating results in addition to the results measured in accordance with U.S. GAAP. While management uses non-GAAP measures in its analysis of the Company's performance, this information should not be viewed as a substitute for financial results determined in accordance with U.S. GAAP or considered to be more important than financial results determined in accordance with U.S. GAAP.
